

# RENAISSANT

AESTHETIC HEALTH

COSMETIC

*Always You*

Uncovering your confidence - your personal mystique - is an art form that we've mastered. Renaissance is dedicated to liberating and enhancing your own special beauty, transforming the way you look and feel.

Like true artisans, we'll craft your journey to improved aesthetic health with masterly skill and the most caring expertise.

## Form

**Welcome to your new confidence.**

Renaissant offers an industry-leading suite of cosmetic enhancements and procedures.

Our highly experienced team of medical professionals are at the forefront of cosmetic health services, renowned for their early adoption of proven, pioneering treatments and technology. Our exceptional cosmetic surgical techniques, revolutionary procedures and our careful selection of only the safest and most effective products and implants, combine to give you world-class results.

Whatever aspect of your aesthetic health you'd like to enhance or overcome, at Renaissance, you'll be completely supported with honest and sound advice, genuine care and the very pinnacle of surgical excellence.

We'll engage with you closely and with genuine empathy to understand your unique aesthetic goals before inspiring you with new possibilities.

## Always You

Our focus is Always You. In every consultation and every treatment, your uniqueness will be respected and celebrated. Whatever your goals are, we'll guide and support you every step of the way. To start your journey to enhanced aesthetic health, book an initial consultation with one of our dedicated medical professionals.

## Face

### Beautification

Renaissant's highly experienced medical specialists use only the very best anti-wrinkle injections, dermal fillers and lip enhancements, to free your skin from the effects of ageing, the environment or genetic conditions.

### Brow lift

A Renaissant brow lift can release any furrows, frown lines and wrinkles around your eyes that can make you look older. This procedure can give you a naturally fresher, softer and younger appearance.

### Eyelid surgery

We can correct drooping eyelids, and remove puffy bags and excess skin around the eyes that may be having a significant effect on how old you look, and even your vision.

### Face and neck lifts

Our rhytidectomy procedure can dramatically reduce the most visible signs of ageing by smoothing wrinkles and skin folds, and tightening loose skin around the neck and face.

### Fat dissolving injectables

We take a tailored approach to each injectable treatment to help you reduce the appearance of submental fullness and improve the profile of your neck and chin.

### Nose reshaping

Your Renaissant surgical specialist can help you achieve your desired nose shape and size. Our rhinoplasty surgery can also relieve nasal obstructions, and correct bumps or birth deformities.

## Body

### Arm lift and reduction

Smaller, firmer, more shapely upper arms can greatly enhance your overall appearance and confidence. Our highly experienced cosmetic surgeons can reduce your arm size and tighten loose skin to give you a slimmer shape.

### Cellulaze

Unlike other cellulite treatments, Cellulaze works deep beneath the skin to deliver outstanding and long-lasting results after just one session.

### Coolsculpting

This non-surgical treatment eliminates stubborn fat by freezing fat cells in targeted areas such as the waist and under the chin. With Coolsculpting, you can achieve a noticeably slimmer body contour.

### Genital surgery

We offer a range of female and male cosmetic genital surgery options, some of which are minimally invasive. These procedures can address a variety of issues, including appearance and size as well as discomfort or pain.

### Gynaecomastia

Renaissant's gynaecomastia procedures can remove unwanted breast tissue, fat and skin from the male chest area. Our surgical specialists take an individualised approach to each procedure to ensure you achieve your desired results.

### Liposuction

This proven body-contouring surgery can reduce stubborn fat that is unresponsive to normal weight loss efforts. The Renaissant team of cosmetic specialists can enhance your body definition and aesthetic form.

### Thigh, buttocks and lower body lifts

If sagging skin or unwanted fat in your lower body is affecting your confidence, this procedure can lift and reshape the area, leaving you looking visibly slimmer and more defined.

### Tummy tuck

Our abdominoplasty procedure can reverse sagging skin or excess fat that can be caused by weight fluctuations and pregnancy. By tightening weakened abdominal muscles and removing fat, your stomach will be smaller, firmer and flatter.

## Breast

### Breast augmentation

Our cosmetic surgeons can expertly achieve your ideal breast shape, size and firmness. We only use implants scientifically proven to be of the highest quality and that meet the safest and most durable standards.

### Breast lift

Renaissant's breast lift procedure can correct sagging or flatness caused by weight loss, having children or the ageing process. If your goal is firmer, fuller and more shapely breasts, our surgical specialists can help.

### Breast reduction

Reducing large or heavy breasts can enhance your physical appearance, assist with neck or back pain, and also correct bad posture. We'll help you discover the best size and shape to suit your appearance and lifestyle.
